How does one, two, three days or even a full two weeks in northern Finland sound? Bring your class to the Liminka Camp School! Based on your wishes we'll plan a memorable combination of learning, culture, sport, outdoor activities, experiences, northern nature and pure air.

In northern Finland, where the Bothnian Bay has receded over the millennia, a long strip of land known as Liminka was formed. Today, Liminka is known as a peaceful, youthful municipal centre that is close to nature and home to about 10,000 residents. Liminka has the youngest population structure in Finland. The population is also highly educated.

Exciting Experiences – Choose the Ones You’re Most Interested in

Liminka has lots of space and opportunities for doing, seeing and trying new things. We have an ice-hockey stadium, outdoor swimming area, wall climbing and many other indoor and outdoor hobby facilities. Your day can include culture, arts, the great outdoors, handicrafts and hikes – adventures you will remember. For many people, the best experience is the nature of Liminka: pure, beautiful and safe, both in summer and winter.

The Camp School can be completely tailored to your needs. Contact us!
